Dramatic changes are on the horizon for the rotorhub world in China. Current trends are shifting and recent forecasts predict a significant boost for helicopter production, maintenance and construction in China. But why?

- Increasing demand for more helicopters both in public & private sector
- More and more air spaces opening
- Implantation of major rotorhub constructors in China
- Boost in tourism: leasing companies rising need for helicopters
- Civil Aviation: taking passengers to remote places without runways

With current forecasts predicting a sharp increase in helicopter demand, as well as China’s increasing prominence on the world rotorhub stage, China Helicopter Exposition is an unmissable event for rotorhub professionals globally.
